

Rhea Mae Edwards

The Five Environmental Systems

1. The Micro System
 - Family
 - Friends
 - Roommate/Floormates
 - Teachers
 - Classmates
2. The Mesosystem
 - Friends meet my roommate and/or floormates.
 - Teachers are also associated with my classmates.
3. The Exosystem
 - Moved to California when I was three years old.
 - Moved to Oregon when I was nine years old.
 - One of my sisters was born when I was a year old.
 - My other sister was born when I was six years old.
 - Campus resources, dining halls, and etc. are only open for certain times.
 - Family, friends, and roommate/floormates are busy at certain times which affects my sociality with them.
4. The Macrosystem
 - Expected to graduate high school.
 - Expected to graduate college.
 - Expected to take care of one's self daily.
 - Expected to be a positive role model being the eldest sibling.
 - Expected to keep long-lasting and healthy relationships with others.
 - Expected to do well in general.
5. The Chronosystem
 - Growing up in Oregon.
 - Dancing throughout my year in high school.
 - Going to college.
