

Planning:

Why do you think we are learning Unix and Python?

It's used widely in the field of Computer Science.

What resources did you use to complete this lab?

Putty and ssh terminal, and our laptops.

Did you use your time wisely to finish the lab on time?

Yes.

Monitoring:

What was the most difficult and confusing part of this lab?

Figuring out what to actually do, and what certain things meant.

What did you do to address the difficulties and confusions?

I asked for help and clarification from my partner.

Evaluation:

How well do you think you accomplished the lab?

I believe it went pretty well.

If you had to do this over, what would you have done differently?

Make more sense into what I was doing.

What worked well for you and what didn't?

Typing the commands went well, and understanding what everything meant didn't.
